I'll Wait Until I Graduate

Richmond's Largest Campaign To Prevent Teen Pregnancy

The Pledge

Today I choose to make a commitment to myself, my family and my friends NOT to parent a child until I am mentally, physically and spiritually able to accept ALL responsibilities of having and raising a child. I am committing to wait, at least, until I graduate from high school and/or finish all of the educational training I need to be self sufficient and successful in life. In order to accomplish this goal, I pledge to act responsibly, hold others accountable and to make mature decisions when it comes to engaging in ANY sexual activity.
